MEMORANDUM FOR: Deputy Director of Central Intelligence

SUBJECT: Use of Retired Officers

1. This memorandum is for information

2. My recollection is correct that NASA was given authority to employ retired commissioned officers of the armed forces without limitation as to numbers. As in the case of our authority, they must of course elect between their retired pay and the pay of the civilian position. I think this indicates a relaxing of the congressional attitude and we should have no trouble getting an increase in numbers or even removing the numbers limitation, particularly if we base it on the need to acquire officers who have received specialized technical training in the services.
